

ONION SETS

Candy Onion Sets — OUT OF STOCK

The Candy Onion set has what is called intermediate or medium maturity. It has a uniquely mild, sweet taste and consistently produces such onions. It has a globe shape on the outside and has large, thick ring, and mostly single centers. The onion has short, sturdy tops with small, tight necks which allow for quick curing. The exterior is a golden brown. When growing for a cooking onion, it will yield jumbo, sweet onions similar to the Walla-Walla. Storage is good for this onion.

Red Onion Sets \$1.69lb

Completely round in shape and grows into a flat slicing onion. Good for green onions or cooking. **Does not** store well.

White Onion Sets \$1.59lb

Completely round in shape and grows into a flat slicing onion. Good for green onions or cooking. Better storage than the yellow onion.

Yellow Onion Sets \$1.49lb — OUT OF STOCK

Completely round in shape and grows into a flat slicing onion. Good for green onions or cooking. Good storage.

Stuttgarter Onion Sets \$1.69lb

Completely round in shape and called the KEEPER onion because of its excellent storage. In a cool, dry place, this onion will store through winter. Grows into a round/slightly flat onion. Good for green onions or cooking. Excellent storage.
